

Tele-Tower®

Adjustable Work Platform

OPERATOR'S MANUAL

Model 14-25 Swing Gate

⚠ WARNING ⚠

Read and become familiar with this manual BEFORE operating unit.

Before operating this equipment, thoroughly read this set of instructions, make sure you understand them, and only then follow the step-by-step directions. Failure to do so could result in serious property damage and / or serious bodily injury.

To our valued customer,

Thank you for choosing a **Telpro Inc.** product by **PARAGON PRO** Manufacturing Solutions. We are pleased that we are able to provide equipment to make your work easier.

Our efforts are focused on producing the finest quality equipment of which we are capable. We make sure to spend extra time and effort on our design and production in order to reduce your time and effort spent using the product.

We take pride in providing the best for our customers. Quality, innovation, and excellence are all qualities this company ensures. No product is sent without being factory tested and inspected to ensure the highest quality for you.

It all began in 1972 when Roland Young designed our first product, the PANEL-LIFT® Brand Drywall Lift, and revolutionized the drywall industry. To this day we are continuously making advancements in manufacturing and design.

Thank you again for giving us the opportunity to work with you. Any questions or comments that you have are always welcome.

USER COMPONENTS

(A)

(B)

(C)

(D)

(E)

(F)

(G)

(H)

(I)

A: Safety Gate (x2)

B: Gate Spring (x2)

C: Gate Spring Mount (x2)

D: 1/4" NC Nylock Nut (x4)

E: 1/4" x 1' 3/4" NC Bolt (x4)

F: Gate Catch Plate (x2)

G: 5/16" NC Nylock Nut (x4)

H: 5/16" x 2' NC Bolt (x4)

I: Safety Gate Catch (x2)

Tools Required

You will need two of each.

• 5/16" wrench

• 1/4" wrench

ASSEMBLY

1. Begin by lifting the TELE-TOWER's top guardrail up and insert the Safety Gate through it as shown. Then set the guardrail back into place.
2. Grab a Gate Spring and insert it into the square tubing at the bottom of the Safety Gate post, lining up the holes.
3. Insert one 1/4" x 1' 3/4" NC Bolt through the hole of the Square tube and Gate Spring. Secure with a 1/4" NC Nylock nut and tighten with a 1/4" wrench.
4. Open the Safety Gate, and place one Gate Spring Mount into the top of the guardrail post.

5. The Gate Spring Mount's Square Gate Spring pocket should be positioned outside of the Tele-Tower walkway. Align the tabs on the Gate Spring Mount with the Safety Chain Mount ring and the opening on the opposite side of the guardrail posts and push down on the Mount until it fits in.
6. Place the other 1/4" x 1' 3/4" NC Bolt through the holes and secure with the 1/4" NC Nylock nut. Tighten with a 1/4" wrench.
7. When you open your gate, the Gate Spring should be twisted as shown above.
8. Pull the Safety Gate behind the guardrail post and apply the Gate Catch Plate with the two 5/16" x 2" NC Bolt inserted.

9. Attach the safety Gate Catch to the inside of the Safety Gate and secure with the 5/16 NC Nylock Nuts.

10. The Safety Gate Catch can be positioned to match the Tele-Tower deck width... 19" or 22". Make sure it is positioned to fully engage the guardrail upright post.

11. Follow the same instructions to attach the second Swing Gate on the opposite end of the Tele-Tower.

12. The gates can be installed to open either to the right or to the left by installing them on the opposite Tele-Tower guardrail post and adjusting the twist of the square spring.

13. After you get both gates installed, your set up is complete.

SAFETY INFORMATION

This product contains trace amounts of the following items which are known to cause. These chemicals are not hazardous under product's intended use. Please review CAS# for more information.

Chemical	Hazard	CAS#	% By Weight
Arsenic	Cancer	7440-38-2	Trace
